Evening: One cup food. 1 white pill. Add water.

Make sure she has enough fresh water as well.

Treats are on the counter. (Ask her to sit first)

Walk:

The leash is near the door.

She may or may not want to go with you to the park. If she's willing, we usually do the short loop – Go down Borton, Enter Douglas preserve. Turn left. Walk to ocean. Walk along ocean for a bit and return on Linda. She usually can't go further than this. She'll let you know!

If she doesn't want to walk, you can let her out in the backyard. Pet her a bit – She usually poops "get busy" in the back part near the fruit trees.
